CONTENTS

Kinematic dynamo problem in a linear velocity field. Ya. B. Zel'dovich, A. A. Ruzmaikin, S. A. Molchanov and D. D. Sokolov *page* 1

Unsteady measurements in a separated and reattaching flow. N. J. Cherry, R. Hillier and M. E. M. Latour 13

Three-dimensional viscous flows with large secondary velocity. W. R. Briley and H. McDonald 47

Laminar boundary-layer transition on a heated underwater body. Gerald C. Lauchle and G. B. Gurney 79

Axisymmetric thermal-creep flow of a slightly rarefied gas induced around two unequal spheres. Yoshimoto Onishi 103

Surface-layer similarity in turbulent circular Couette flow. Martin Claussen 123

Pattern selection in single-component systems coupling Bénard convection and solidification. S. H. Davis, U. Müller and C. Dietsche 133

Study of the effects of wall conductance on natural convection in differently oriented square cavities. D. M. Kim and R. Viskanta 153

On the formation of ripples on an erodable bed. B. Mutlu Sumer and Mehmet Bakioglu 177

Flow past wing–body junctions. F. T. Smith and J. Gajjar 191

Secondary current and river-meander formation. Peter K. Kitanidis and John F. Kennedy 217

Local isotropy and the decay of turbulence. A. E. Gargett, T. R. Osborn and P. W. Nasmyth 231

Tip streaming from slender drops in a nonlinear extensional flow. J. D. Sherwood 281

Flow in a rotating non-aligned straight pipe. J. Berman and L. F. Mockros 297

On the stability of the similarity solutions for swirling flow above an infinite rotating disk. R. J. Bodonyi and B. S. Ng 311

Axisymmetric Couette flow at large Taylor numbers. A. A. Townsend 329

The interference of thermal fields from line sources in grid turbulence. Z. Warhaft 363

Experiments on transient natural convection in a cavity. G. N. Ivey 389

Flow in a differentially rotated cylindrical drop at moderate Reynolds number. George M. Harriott and Robert A. Brown 403

Surface–wave propagation over sinusoidally varying topography. A. G. DAVIES and A. D. HEATHERSHAW 419

Two-dimensional impervious sails: experimental results compared with theory. B. G. NEWMAN and H. T. LOW 445

A note on the mechanism of the instability at the interface between two shearing fluids. E. J. HINCH 463
